Terminology Key

abetaned = attained
ancord = anchored
aparatus = apparatus
breas = breeze
carpendr = carpenter
exrsied = exercised
frish = fresh
frm = from
hans = hands
hevy = heavy
litel = little

md = midday
mn = midnight
mordrat = moderate
ovr = over
raney = rainy
reprte = report
rugh = rough
string = strong
substitute = substitute
survis = service
ruck = took
wach = watch

W T West as he wrote also dropped e's that came before r's at the end of words and names. For Example – Cramer becomes Cramr, Keeper becomes Keepr.

Punctuation was not in the original log so I left it out since there weren't any sentences, it is more just notes of what was happening.

Watercraft:

Bk = Bark
Brig
Schrs, Schr = Schooners
Slupe
Stem, Stm, Stemers, Str = Steamships, Steamers

Patrol men:

James Richardson
Morris C. Cramer
John B. Jones
Adelbut Soaper
George W. Collya(e)r
Charles Cropper

at 830 Am A messenter reported at the Station A Large Bask ashore 6 miles below J Emedently
Sumed all hands procased team and tuck our Surf Boat Life Car Lyle gun and all our apparatus
and Left the Station at 910 Am fir the wrack when about 14 miles from the Station met A nother
mesenger J with my restoritives went on with the boy to the wrack as fast as J. Cold

Left the crew in charge of our Boat and other apparatus with orders to get those as soon as possible (on side: used 4 oz powder Line No 7 Elevation 27° range attained 300 by estimate) I arrived at the wreck at 1130 Am and found the vessel had worked in on the tide

at 12 noon our crew arrived at the wreck proceeded to arrange our apparatus and plant our sand anchor fired our Lyle gun 4 oz powder Line No 7 made correction evidently and at 1230 Pm had the Life Care onboard and broat the Capt on Shore but as the tide was falling and vessel lying Easy he thought best not to bring the crew on Shore as there was no danger we then broat the mate on Shore and the wind changing to NW he wanted to go back so we put him back and broat the Stewardis on Shore and she was very nervous so I gave her a little brandy and water so got better we then brought a Line from the burk on shore

Ocean City Md W T West Keper

and made it past the best we could then got all of our apparatus together and lashed up and started for the Station Left wreck at 3 Pm arrived at the station at 530 Pm at 12 noon Light Eastrly breas with thick Sea rough Surf high
